# Data Health-Check

Review your privacy policy

Review your business Ts &Cs

Review contracts with third party  
data processors

Advice on your obligations as an  
employer

---

**£750 + VAT**

You may have already received training on the new General Data Protection Regulations (GDPR) which come into force in May 2018. However, many businesses still seem unclear on how to tackle implementation.

Our Data Health Check is designed to help you identify the key changes that you need to make in your organisation, in relation to commercial and employment/ HR concerns, in order to comply with the new regulations.

**For a fixed price of £750 +VAT we will:**

- Review your privacy policy and highlight any necessary changes
- Review your business Ts & Cs, focusing on how you obtain consent to use and retain data
- Review up to two of your commercial contracts with third party data processors (including data shredding and data analyst companies)
- From an employment and HR point of view, advise you what the impact of GDPR will be on:
  - o Processing data and obtaining consent
  - o Retention of employee records
  - o Data protection policies & privacy notices
  - o Subject access requests
